## **Guyana Nature Experience 2017**

*This classic small group adventure takes in many of the highlights of Guyana: visit Kaieteur and Orinduik Falls before travelling to Iwokrama for jungle hikes, boat trips, the Iwokrama Canopy Walkway, and the chance to see the elusive jaguar. Stay in the Makushi village of Surama before going into the savannahs in search of giant river otters, giant anteaters and black caiman.*

**PLEASE NOTE:** Itinerary for 2017 is one day shorter than 2016 to match availability of internal flights. This means only one night at Rock View Lodge in 2017.

### **Saturday**

We will pick you up at the airport, and then transfer you to your selected hotel.

Cara Lodge was built in the 1840's and originally consisted of two houses. It has a long and romantic history and was the home of the first Lord Mayor of Georgetown. Over the years, the property has been visited by many dignitaries including King Edward VII who stayed at the house in 1923. Other dignitaries have included President Jimmy Carter, HRH Prince Charles, HRH Prince Andrew and Mick Jagger. This magnificent home turned hotel offers the tradition and nostalgia of a bygone era, complete with service and comfort in a congenial family atmosphere. Overnight at [Cara Lodge](#). (Check in time 1400hrs, Check out time 12midday)

### **Sunday**

Breakfast at the hotel before transferring to the Eugene F. Correia International Airport for a scheduled flight over the Demerara and Essequibo Rivers and hundreds of miles of unbroken tropical rainforest to land at [Kaieteur Falls](#), the world's highest free-falling waterfall. At 228 meters, Kaieteur is nearly five times the height of Niagara Falls.

Kaieteur Falls which was first seen by a European on April 29, 1870 is situated in the heart of Guyana on the Potaro River, a tributary of the Essequibo. The water of Kaieteur, one of the world's natural wonders, flows over a sandstone conglomerate tableland into a deep gorge - a drop of 741 feet or 5 times the height of Niagara Falls.

There are no other falls in the world with the magnitude of the sheer drop existing at Kaieteur. Amerindian legend of the Patamona tribe has it that Kai, one of the tribe's chiefs (after whom the falls is named), committed self-sacrifice by canoeing himself over the falls. It was believed this would encourage the Great Spirit Makonaima to save the tribe from being destroyed by the savage Caribishi.

Kaieteur supports a unique micro environment with Tank Bromeliads, the largest in the world, in which the tiny Golden frog spends its entire life and the rarely seen Guiana Cock- of-the-rock nesting close by. The lucky visitor may also see the famous flights of the Kaieteur Swifts or Makonaima Birds which nest under the vast shelf of rock carved by the centuries of water, hidden behind the eternal curtain of falling water.

***See notes on Kaieteur Falls flight upgrade options below***

Overnight at [Cara Lodge](#). B

Condition of Sale :

Flights to Kaieteur Falls are operated on chartered aircraft and all flights have a minimum passenger restriction. Therefore, any booking to Kaieteur and Orinduik Falls is subject to a minimum of 5 passengers being available to travel. In most cases we are able to fill flights, especially if scheduled for a weekend. However, in the rare case that we cannot meet the required numbers we will reschedule the trip to another day during your stay, if this is possible. Wilderness Explorers retains the right to reschedule a flight as a first option. If we cannot reschedule the flight Wilderness Explorers will guarantee a flight, with a minimum of 2 passengers, to Kaieteur Falls only.

If a flight is cancelled due to circumstances beyond our control, such as weather, we will endeavour to reschedule the flight during your itinerary. If this is not possible then a full refund on the flight will be made.

## **Monday**

Pickup and transfer to Eugene F. Correia International Airport. Board scheduled flight for journey over the Demerara and Essequibo Rivers and hundreds of miles of tropical rainforest to land in the Rupununi.

Transfer by 4x4 vehicle or 4x4 Bedford Truck to Iwokrama River Lodge.

The Iwokrama Rainforest is a vast wilderness of one million acres. This protected area was established in 1996 as the Iwokrama International Centre for Rainforest Conservation and Development. The Iwokrama Forest is in the heart of one of four last untouched tropical forests of the world - The Guiana Shield of North-Eastern South America. Iwokrama was established as a living laboratory for tropical forest management because the unsustainable utilisation of these forests will result in the extinction of half the world's plant and animal species and unknown changes to global climate.

This is a protected area with a difference - the full involvement of people. Iwokrama is exceptional among conservation organizations because it joins with local people in every aspect of its work. From research to business, Iwokrama ensures local economic and social benefits from forest use and conservation. The Forest is in the homeland of the Makushi people, who have lived here and used the forest for thousands of years. People are a vertical part of the ecosystem. The success of Iwokrama relies on the ownership of local people and

the combined skills of specialists and communities. Iwokrama does what so many International conventions have acknowledged as best practice. It has begun conservation locally and integrated conservation into national development.

Explore the trails around the lodge with an Iwokrama Ranger. Iwokrama is home to many bird species including Capunchinbird, Black Nunbird, Chestnut-rumped Woodcreeper, Amazonian Antshrike, Brown-bellied Antwren, Spot-tailed Antwren, Todd's Antwren, Spotted Puffbird, Green Aracari, Guianan Toucanet, Guianan Red Cotinga, Pompadour Cotinga, Rufous-crowned Elaenia, Bronzy Jacamar, Chestnut & Waved Woodpecker, Gray Antbird, and Strong-billed Woodcreeper. Three other Neotropical species in the Iwokrama forest of high interest are White-winged Potoo, Rufous Potoo, and Rufous-winged Ground-cuckoo.

The forest is also home to many mammals and you may see Red-rumped Agouti and various species of monkey including Red Howler, Black Spider and Wedge-capped and Brown Capuchins.

After dark we'll set out on the river, in hope of finding one or another of its four species of caiman, and listen for night birds such as Spectacled Owl, White-winged Potoo, Rufous Potoo, Long-tailed Potoo, Zigzag Heron or Blackish Nightjar. You may see one or another of the four species of caiman, and most certainly snakes including Cox boa, tree frogs and if lucky maybe some mammals. Maybe even a puma or capybara.

The [Iwokrama River Lodge](#) is set overlooking the Essequibo River. Accommodation is offered in eight spacious timber cabins with shingle roofs, bathroom facilities and veranda overlooking the river. Running water and flush toilets are standard, however water is not heated (and rarely desired in the tropical heat).

Electricity is provided by a combination of solar and diesel generator systems, and wireless internet access is provided for free in the main building. Meals are served buffet-style in the Fred Allcock dining hall, where you can mingle with the rangers, administrative and scientific staff. Overnight at [Iwokrama River Lodge](#) . BLD

## **Tuesday**

Making an early start, we'll embark on the Essequibo and circumnavigate nearby Indian House Island, before returning to the River Lodge for breakfast.

Leave the lodge by boat, bird watching along the way, for the hike to Turtle Mountain. A well maintained trail winds through the forest before an exhilarating climb up the mountain to its summit at 935ft (approx. 360m). It takes 1 3/4hrs to walk up the mountain, but the effort is more than worth it for the breath taking views over the forest canopy when you get there and chances of Green Aracari, White Bellbird or a fly-by of one of five types of eagles. This trail is also a great location for seeing Black Spider Monkey and Red Howler Monkey and if you are very lucky even a Jaguar. This pristine forest offers huge buttress trees and the endemic Greenheart, a highly sought after hardwood. If you think this hike may be too strenuous you can take an alternative boat trip to Stanley Lake to search for Giant River Otters and Black Caiman.

As the afternoon cools you set out on a boat trip to visit Kurupukari Falls to see the Amerindian petroglyphs (dependent on the water level). Overnight at [Iwokrama River Lodge](#). BLD

### **Wednesday**

Explore the trails around the lodge with an Iwokrama Ranger.

Transfer by 4 x 4 along the trail that is one of the best places to see the elusive Jaguar. The Iwokrama forest is rapidly gaining an international reputation for its healthy jaguar populations that seem not to be troubled by the appearance of curious humans. No promises, but many have been lucky! Along the road, we will watch for the myriad of bird species that frequent the forest edge, including Crimson and Purple-necked Fruit-crow, Crimson Topaz, Green Oropendula, Spotted and Guianan Puffbird, Scarlet and Red-and-Green Macaw, Blue-cheeked and Orange-winged Parrot and Gray-winged Trumpeter. This road is the only north – south access in Guyana and links the country to Brazil. Even so traffic is only very occasional and wildlife is often seen along the road, such as Agouti, Tayra, Puma, Tapir and Black Curassow. The journey concludes at the Iwokrama Canopy Walkway.

The Iwokrama Canopy Walkway is situated at Mauisparu, near the southern boundary of the Iwokrama Reserve in central Guyana. The walkway has four suspension bridges leading to three platforms, the highest of which is over 30 metres above the ground, and these will allow great looks at a range of canopy species, many of which you would struggle to see well from the forest floor. Amongst the likely highlights are Painted, Brown-throated and Golden-winged Parakeets, Caica Parrot, Guianan Puffbird, Waved and Golden-collared Woodpeckers and Spot-tailed, Todd's and Ash-winged Antwrens. The walkway is also an excellent place to look for various species of cotinga including the poorly known and range-restricted Dusky Purpletuft and if there are any suitable fruiting trees nearby, you stand a good chance of seeing this bird, as well as the more widespread Purple-breasted Cotinga.

Another area where we will want to spend some time is the clearing around the lodge, as this is one of the best places to see another of Guyana's "must see" birds, the Crimson Fruitcrow. This species is seen here on a reasonably regular basis, as it often comes to feed in some of the nearby trees. The clearing is also a reliable site for Black Curassow as there is a family party which has become habituated to people and regularly passes through the clearing. With reasonable luck, you should be able to add this bird to the impressive list of species you will see around the lodge and walkway.

Atta Rainforest Lodge is 500 metres from the base of the Canopy Walkway, offering comfortable private-room accommodation with ensuite bathrooms, delicious home-cooked meals, and traditional Amerindian hospitality. The lodge is completely surrounded by tropical rainforest which offers a complete immersion in the rainforest experience. The main building is open sided with views across the gardens to the towering forest on all sides and houses the bar, dining area and kitchen. Overnight at [Atta Rainforest Lodge](#). BLD

## **Thursday**

Before dawn we will return to the canopy where we can birdwatch easily and may see Rufous-throated Sapphire, Green Aracari, Pygmy Antwren and Guianan Streaked-Antwren. With some luck Guianan Toucanet, Pompadour Cotinga, Buff-cheeked Greenlet and a host of crown specialists may come within our view. From this tree top vantage you can sometimes see Red Howler Monkeys and Black Spider Monkeys.

Apart from the Iwokrama Canopy Walkway itself you can enjoy wildlife and bird watching walks on the trails around the area. For those interested in botany many of the trails have the key trees species marked. Many bird species, stunning insects, noisy amphibians, and playful primates make the surrounding forest their home and you can be fairly certain to spot some extraordinary wildlife without even trying too hard. Deer and agouti are also regular visitors to the lodge. Serious birders will want to search the undergrowth for the rarely seen Rufous-winged Ground-cuckoo.

As dark falls on the canopy walkway, you may see the White-winged Potoo. Night walks are also possible and something interesting or new always seems to pop on to the scene including the occasional jaguar (*panthera onca*) along the transnational road near the lodge. Overnight at [Atta Rainforest Lodge](#). BLD

## **Friday**

Welcome the dawn chorus from the canopy walkway. Short-tailed Nighthawks settle in for the day, Swifts take to the sky, White throated and Channel-billed Toucans yodel, and Barred Forest Falcons call. Birdwatch from the mid and upper canopy on the walkway as flocks travel past and look for Paradise Jacamar, White-necked Puffbird, Yellow-throated Woodpecker, Black-tailed and Black-crowned Tityras. Or you can bird along the jungle trails where antbird flocks include White-plumed Antbird, Spot-winged Antbird, Ferruginous-backed Antbird, Long-billed Antwren, McConnell's Flycatcher, Gray-crowned Flycatcher, Plain Xenops and Wedge-billed Woodcreeper.

Return to the lodge for breakfast before departure. Transfer from Atta Rainforest Lodge by 4 x 4 vehicle or 4x4 Bedford Truck (converted with forward facing seats and canopy) through the rainforest to Corkwood in the Iwokrama Forest. Here there is a comparatively short trail to a trail to hopefully see the amazingly brilliant Guianian Cock-of-the-rock. This trail is through interesting forest and the guides can show the use of the plants. Then continue the journey to the community of Surama.

The Amerindian community of Surama is located in the heart of Guyana. The village is set in five square miles of savannah which is ringed by the forest covered Pakaraima Mountains. Surama's inhabitants are mainly from the Macushi tribe and still observe many of the traditional practises of their forebears.

This isolated and idyllic location offers an escape from the concrete jungle to a serene and peaceful existence with nature. The guides have lived their entire lives in the rainforest, and have an incredible understanding of nature and how to utilise its resources.

On arrival in Surama you will receive a warm welcome from local staff and settle into your accommodation at the Surama Eco-lodge. A local guide will escort you for a short walk on trails to observe the forest and bird life. As the afternoon cools your guide will take you on a tour of the village. Visit the local school, medical centre and church along with some of the village houses. Tonight enjoy an educational walk to observe wildlife and experience the mystique of the forest after dark. Overnight at [Surama Eco-lodge](#). BLD

### **Saturday**

Rise before dawn for a walk across the savannah and then climb up Surama Mountain for incredible views across the village and savannah to the Pakaraima Mountains. This is not a technical climb but can be arduous, especially after rain, and not for everyone. Your guides will happily offer alternative activities if you prefer not to do this climb.

Return to village for lunch and then take a three mile walk across the savannah and through the rainforest to the Burro Burro River. Your guides will then paddle you on the Burro Burro River for opportunities to observe Giant River Otters, Tapir, Tira, Spider Monkeys and many more species. Return to village for sunset. Overnight at [Surama Eco-lodge](#). BLD

### **Sunday**

Enjoy dawn breaking across the rainforest. You can choose from a forest walk to look for wildlife and birds or relax around the lodge before breakfast and departure. Transfer by 4x4 vehicle or 4x4 Bedford Truck from Surama to Rock View Lodge at Annai.

Rock View Lodge is located where the savannah meets the forest-covered foothills of the Pakaraima Mountains. With its tropical gardens and flowering trees, the lodge resembles an oasis in the savannah, and attracts many species of birds, particularly nectar feeders and frugivores. Nearby patches of light forest are home to certain ant birds and flycatchers, and of course the grasslands support an avifauna of their own.

Eight comfortable rooms have ensuites and feature a patio and hammock for relaxing. Meals are served in the dining room under the mango trees and most of the produce is grown on the property. The pool has a lovely setting in the gardens and is welcome respite on a hot day.

You can see how cashews are roasted and see how local handicrafts are made and maybe even try your hand at them yourself. The labour-intensive method of cracking open the roasted nuts along with the self-ignition of the nuts as the acid content burns off are a spectacular sight. You can then taste the freshly roasted nuts.

The locals have always made the items needed for their daily activities from material gathered in the forest. You will see how the materials are plaited in various designs to form the baskets, sifters and other utensils as well as the spinning of cotton and the working of leather to create whips, belts and other articles used by the local vacqueros. Overnight at [Rock View Lodge](#). BLD

## **Monday**

At dawn take a hike in the foothills of the Pakaraima Mountains on the Panorama Trail where you might see Cinereous Mourner, Finsch's Euphonia, Reddish Hermit, Rufous-bellied Antwren, Green-tailed and Yellow-billed Jacamar. The views across the savannah and villages as the sun rises are spectacular.

Travel south by road from Rock View Lodge to Ginep Landing. From Ginep Landing we take a boat trip on the Rupununi River to Karanambu Lodge. Depending on the river level, this trip offers an excellent opportunity to look for Giant Otters as there are several family groups which live along this stretch of the Rupununi River.

Karanambu, a 110-square mile former cattle ranch, is the home of Diane McTurk, conservationist and a world-renowned expert on giant otters. Karanambu is located in the North Rupununi, a region of southwestern Guyana known for its expansive wetlands and savannah, as well as its biological and cultural diversity. Settled in 1927 by Tiny McTurk, Karanambu was once a working cattle ranch and Balata collection station. It is now an eco-tourist destination known as The Karanambu Lodge. Karanambu encompasses savannah, marshy ponds, riparian forest, and a 30-mile stretch of the Rupununi River.

The North Rupununi of southern Guyana is an extraordinary natural and pristine area. The landscape is an integration of four ecosystem types: wetlands, savannahs, rivers, and forests. The number of species found here is much higher than expected given its size. There are at least 600 species of fish, along with 600 species of bird, and over 200 species of mammals. Karanambu is located roughly in the middle of this beautiful and fascinating biological hotspot where endangered species like the Giant Otter, Black Caiman, Jaguar, Giant Anteater, and Arapaima can be found. The seasonally flooded savannahs and forests also draw substantial fish migrations. There may be as many as 700 species of fish at Karanambu — more than anywhere on Earth.

This region is rich in history, too. The North Rupununi is the homeland of the Makushi and earlier peoples dating back almost 7,000 years ago. Village neighbours include the Makushi villages of Kwaimatta, Massara, Yupukari, Toka, and Simoni. Several prominent explorers and naturalists have written about their experiences here, including Robert and Richard Schomburgk, Charles Waterton, Evelyn Waugh, Gerald Durrell, and David Attenborough. Lake Amuku, not far from Karanambu, was once considered by Sir Walter Raleigh, and later by Alexander von Humboldt, and others to be the location of Lake Parime on whose banks the golden city of "El Dorado" was said to be located.

The romance of the Rupununi pioneers lives on at Karanambu. The compound has the flavour of an Amerindian Village. Because of the remoteness of Karanambu, staff live on site and the children can be seen and heard on the weekends and holidays when they come "home" from schools in the nearby villages of Yupakari, Kwaimatta and Massara. This feeling of community is further enhanced by the accommodations, which are traditionally made clay brick cabins. Each private cabin can accommodate two people and includes private bathroom and Veranda with hammocks.

With both the river and the savannahs close at hand there is a wide variety of activities to be enjoyed at Karanambu. You are free to determine what you want to do based on your interests, the time of year and whether the guides have found anything especially unique and interesting to see. Two guided excursions are provided each day — one early in the morning and another late in the afternoon and into the evening. As well as being the coolest times to be out, these are usually the best times to see the different birds and animals. Trips may be on the river by boat, on the savannahs by Land Rover or along forest trails on foot to the different ponds in the area.

Late in the afternoon we will travel by boat to look for wild Giant River Otters and as dusk falls to the ponds to see the giant Amazonia Regis water lily, bloom at dusk. On the return trip we will spotlight for Black Caiman and birds and creatures of the night. Overnight at [Karanambu Lodge](#). BLD

## **Tuesday**

This morning we may make an early start to reach an area of rolling grasslands, which is home to a population of giant anteaters. With luck we shall locate one of these six-foot long animals excavating its breakfast from one of the red termite mounds that stud the savannah. The giant anteater, also known as the ant bear, is a large insectivorous mammal native to Central and South America. It is recognizable by its elongated snout, bushy tail, long fore claws and distinctively coloured pelage. It feeds primarily on ants and termites, using its fore claws to dig them up and its long, sticky tongue to collect them. Though giant anteaters live in overlapping home ranges they are mostly solitary except during mother-offspring relationships, aggressive interactions between males, and when mating. Mother anteaters carry their offspring on their backs until weaning them.

An evening visit to a nearby pond to see hundreds of Ibis, Anhinga, Heron and Egret roosting (only in rainy season) is a highlight. If you are interested in bird watching you can explore woodland patches or gallery forest along the river where we'll hope to find such species as Spotted Puffbird, Striped Woodcreeper, Pale-bellied Tyrant-Manakin, Golden-spangled Piculet, Bearded Tachuri and Capuchinbird. A feature bird for the area is Agami Heron. An evening walk along the airstrip offers seven species of nightjar and among the grasslands the Double-striped Thick-knees. Overnight at [Karanambu Lodge](#). BLD

## **Wednesday**

In the event you did not see a giant anteater the previous morning, there is time to travel out to search the savannah again. Or explore the Rupununi River in search of wild Giant River Otters, Black Caiman and Arapaima, making a boat journey along quiet stretches of river.

Return to the lodge for breakfast before departure. After breakfast we say our goodbyes and transfer upriver by motorized boat to the nearby Amerindian village of Yupukari and Caiman House.

Vehicle transfer from landing to Caiman House. At the edge of Yupukari Village in the Central

Rupununi is Caiman House Field Station, a combination guest-lodge and education centre focused on research and conservation projects along the nearby Rupununi River. The Field Station is the hub of several participatory development projects, including the introduction of classroom libraries in all three village schools and an Internet-enabled public library. Visitors may have the opportunity to meet local craftspeople, including the furniture builders at Yupukari Crafters, a non profit venture to create village jobs and generate income to sustain educational development.

As a guest you have the unique opportunity to support and participate in an on-going field study of the Black Caiman (*Melanosuchus niger*), the largest member of the alligator family and an endangered species. You are invited to accompany the indigenous crew as they search for and capture Black Caiman on the river. Guests will observe the capture from a separate boat, but will be offered the opportunity to assist in data collection. Caiman are weighed, measured, sexed and tagged before being released back into the river. The research has already discovered interesting information on caimans' nests that was previously unknown.

Four modest but comfortable guest rooms are situated around a central lounge area in the lodge behind the research centre. Guest rooms comfortable beds and feature attached bathrooms with flush toilets and running water. Other rooms are available in the main building with shared bathroom. Caiman House Field Station and the Guest House are powered 24 hours a day by a large solar array. The entire station is served by wireless internet access. Overnight at [Caiman House](#). BLD

### **Thursday**

This morning we will have some time to visit the village, to learn about their way of life. Or go birdwatching in search of the many good savannah, gallery forest and river-edge birds found in the Caiman House area including Pinnated Bittern, Green-tailed Jacamar, Black-chinned Antbird and Capuchinbird.

Vehicle transfer from Caiman House to airstrip to board scheduled flight for journey over the Demerara and Essequibo Rivers and hundreds of miles of tropical rainforest to land at Eugene F. Correia International Airport.

Pickup at Eugene F. Correia International Airport and transfer to Georgetown.

Georgetown the chief port, capital and largest city of Guyana is situated on the right Bank of the Demerara River Estuary. It was chosen as a site for a fort to guard the early Dutch settlements of the Demerara River. The city of Georgetown was designed largely by the Dutch and is laid out in a rectangular pattern with wide tree lined avenues and irrigation canals that criss cross the city.

Most of the buildings in the city are wooden with unique architecture dating back to the 18th and 19th centuries. For the most part the buildings have Demerara shutters and designed fretwork which trim eaves and windows. Main Street, Georgetown provides several excellent

examples of old colonial homes, a prime example of which is the State House, built in 1852. The State House is set in large gardens and is painted green and white and has hosted many visiting dignitaries.

During your visit to Georgetown there are a number of interesting sights that should not be missed: the most famous being St. George's Cathedral. The Cathedral is one of the world's tallest free standing wooden buildings and was consecrated on 1892. The foundation stone was laid on November 23, 1890 and the building was designed by Sir Arthur Bloomfield. The story of the cathedral is told on the interior on tablets and memorials of a historical and sentimental nature: it is the tale of the history of Guyana in general and of the Diocese in particular.

At the beginning of the Avenue of the Republic stands the Public Library housed in the Carnegie Building. Other historic buildings along this promenade are the Town Hall, a splendid example of Gothic architecture, and further along are the Victoria Law Courts and St. Andrews Kirk. St. Andrew's is the oldest surviving structure of any church in Guyana.

The famous Stabroek Market, once described as a "bizarre bazaar", contains every conceivable item from house hold goods and gold jewellery to fresh meat and vegetables brought to town on the river daily. The clock tower can be seen for miles around and is a famous landmark.

No trip to Georgetown would be complete without a visit to the Botanical Gardens and zoo. The Botanical Gardens houses one of the most extensive collections of tropical flora in the Caribbean and are laid out with ponds, canals, kissing bridges and bandstand. Over 100 species of Guyanese wildlife can be observed at the Zoo including a wide variety of tropical fishes and birds.

The National Museum which contains a broad selection of our animal life and heritage should not be missed, nor the Walter Roth Museum of Anthropology, which explains Amerindian history and life style.

The tour will include walking along the Avenues with an experienced guide who will give you the history, rumour and facts on Georgetown and its citizens. The group will be accompanied at all times by a vehicle, which will be used for travel between areas of interest. During the tour there is always the opportunity to purchase that unusual gift or unique Guyanese handicrafts, or for the daring the chance to delve into the gold and diamond market. Overnight at [Cara Lodge](#). (Check in time 1400hrs, Check out time 1200hrs midday) B

## **Friday**

Pickup in Georgetown and transfer to Cheddi Jagan International Airport for departing flight. B

Scheduled Departure Rack Rate: US\$ 5,238.00 per person (minimum 2 persons to operate the trip, maximum of 10 persons).

Single Supplement Rack Rate: US\$ 655.00

Tour can also be sold on a Non scheduled departure basis.

Non Scheduled Departure Rack Rate: US\$ 5,610.00 per person (minimum of two persons to operate the trip).

Single Supplement Rack Rate: US\$ 655.00

Please note single supplement is for a single room (where available), but as part of a group with a minimum of 2 pax. Not for a single traveller on trip alone. Rate for a single traveller can be provided on request.

**Rate Includes:**

- airport transfers
- double or twin accommodation
- meals as listed
- limited local bar at Karanambu Lodge
- all road and river transfers
- internal flights in Guyana
- activities as described
- local guides
- VAT
- Kaieteur National Park fee
- Iwokrama Forest User Fee
- Iwokrama Canopy Walkway fee

**Not Included :**

- items of a personal nature
- alcoholic drinks except where mentioned above
- departure tax
- international flights
- visa

**Dates for 2017:**

Saturday 9<sup>th</sup> December to Friday 22<sup>nd</sup> December 2017

## **KAIETEUR FALLS FLIGHT UPGRADE OPTIONS**

### **PRIVATE GUIDE UPGRADE**

The flight to Kaieteur Falls is a scheduled flight with a local airline and uses a Kaieteur Warden as guide at the falls and only includes one bottle of water. To enhance your experience you can choose to have your own private guide accompany you on the flight and enjoy a private tour at the falls along with additional food and drinks.

### **ORINDUIK FALLS UPGRADE**

Upgrade to a Kaieteur and Orinduik Flight is possible subject to availability of that flight combination being operated on the day. This will only likely be confirmed in the week prior to arrival and logistically best to be paid locally.

The Orinduik Falls is where the Ireng River thunders over steps and terraces of solid jasper, a semi-precious stone. With a backdrop of the rolling grass-covered hills of the Pakaraima Mountains, this is truly one of the most beautiful locations in Guyana's hinterland.

Its name is derived from the Amerindian (Patamona) word, Orin, which is the name of an aquatic plant found in these falls. The Ireng River forms the border between Brazil and Guyana. In contrast to Kaieteur, Orinduik is ideally suited for swimming and you will find natural Jacuzzi's as the falls tumble down the steps of Jasper.

Net Rate : US\$76.00 per person.

### **ORINDUIK FALLS AND PRIVATE GUIDE UPGRADE TO BOTH FALLS**

As above with the Orinduik Falls Upgrade, plus enhance your experience with your own private guide accompanying you on the flight and enjoy a tour to both falls along with additional food and drinks.

Note: Passenger/s traveling on internal flights in Guyana are allowed a free baggage allowance of 20lbs/9.1KG exceeding this weight passenger/s will incur a cost of GY\$150.00 (price subject to change) equivalent to US\$ 0.77cents per pound. Please note that additional baggage allowance is subject to availability and cannot be confirmed until day/time of check-in by the airline. We can book excess weight on your behalf but it is subject to being within the payload of the aircraft and at the discretion of the airline. Contact us for more information.

### **DISCLAIMERS**

**BODY WEIGHTS** : Please be advised all tour operators and customers must provide us with body weights of

*passengers booked to travel on tour to Guyana for all internal flights. Failure to provide us with this information or the incorrect information can cause delays to flights and inconvenience to other passengers and in some cases either passengers and/or luggage being taken off the flight. To ensure a holiday that is enjoyable and hassle free, it is imperative that passengers provide us with this information. We appreciate some people are sensitive about providing their body weights, but all customers and their baggage are weighed at check-in. This is procedure by the airline so as to ensure that the weight of the load is within the payload limit for the aircraft, and neither they nor Wilderness Explorers will compromise on safety. All passengers are subject to removal of themselves or luggage from the flight if over the weight they provided and/or over the baggage allowance. Passengers are advised to provide a body weight with clothing similar to that which they would expect to travel in on the flight. Wilderness Explorers cannot be held responsible for any passenger denied boarding or luggage not transported if they are over the weight provided. Weights supplied are provided to the airline in advance to ensure the flight is within the allowable payload.*

**A WORD ON VISA'S :** *The requirement for a visa can change at any time and without notice. It is your responsibility to ensure you have the necessary visa for each country. We recommend you check the visa requirements for each country included in your itinerary. We are happy to provide advice on current requirements and even assistance in obtaining a visa on arrival or tourist cards. If you are unsure on requirements please contact us for assistance.*

**CONDITION RESTRAINTS :** *You have selected a tour that is, in part, in remote areas. This adds to the adventure and opportunity to enjoy a true nature experience. However, due to the nature of the terrain, weather, road conditions, and other elements beyond our control, some elements of tours may have to be altered. Times of some activities may need to be changed or even cancelled due to the conditions. If an activity is cancelled it will be replaced with an alternative activity that is more appropriate for the conditions. Advance notice will be given for any changes where possible, although at times changes may be made whilst the tour is in progress.*

**WILDLIFE SIGHTINGS :** *With any trip involving wildlife it is impossible to guarantee a sighting, but each trip is designed around known habitats. Wilderness Explorers will make every effort to ensure a sighting, but cannot be held responsible if no sighting is made due to the wildlife itself, weather, or any other elements beyond our control.*

## **TERMS AND CONDITIONS**

### **AUTHORITY ON TOUR**

At all times the decision of the company or its representative will be final on all matters likely to endanger the safety, well being and enjoyment of the tour. Clients must at all times strictly comply with the laws, customs, foreign exchange and drug regulations of all countries visited. Should the client fail to comply with the above or commit any illegal act when on tour or, if in the company's opinion, the client's behaviour causes or is likely to cause danger, distress or annoyance to others we may terminate that client's travel arrangements without any liability on the company's part.

### **TRAVEL DOCUMENTS**

The Client must be in possession of a valid passport (valid 6 months past the return date), visa (where necessary), permits and certificates including vaccinations certificates, insurance policies required for the journey – the client accepts responsibility of obtaining these. Any information or advice given by the company on visas, vaccinations, clothing, special equipment, baggage, climate, etc. is given in good faith but without responsibility on the part of the company.

### **CONDITION RESTRAINTS**

You have selected a tour that is, in part, in remote areas. This adds to the adventure and opportunity to enjoy a true nature experience. However, due to the nature of the terrain, weather, road conditions, and other elements beyond our control, some elements of tours may have to be altered. Times of some activities may need to be changed or even cancelled due to the conditions. If an activity is cancelled it will be replaced with an alternative activity that is more appropriate for the conditions. Advance notice will be given for any changes where possible, although at times changes may be made whilst the tour is in progress.

### **WILDLIFE SIGHTINGS**

With any trip involving wildlife it is impossible to guarantee a sighting, but each trip is designed around known habitats. Wilderness Explorers will make every effort to ensure a sighting, but cannot be held responsible if no sighting is made due to the wildlife itself, weather, or any other elements beyond our control.

### **LOCAL CULTURE**

Many of the areas to be visited are remote and cultures of the people most likely different to what you are accustomed to. These communities welcome visitors under the conditions that their customs, habits and rituals are respected at all times. Wilderness Explorers will endeavour to provide appropriate guidance to visitors as to correct behaviour whilst in these communities. The company reserves the right to cancel a visitor's tour, at any time, should their behaviour be inappropriate and offensive to the local communities.

#### **ACCEPTANCE OF RISK & RESPONSIBILITY**

Nature and adventure travel is by character, an activity that requires travelling in areas that are often remote and the terrain difficult. Whilst every precaution is taken to ensure the comfort and safety of our customers, these trips do have elements of risk. By taking part in this tour you acknowledge that there are inherent risks and that you are fully aware of the conditions of travel, accommodation and activities offered. You accept that Wilderness Explorers, its staff and sub-contractors cannot be held liable for any accident, illness or similar occurrence. You hereby accept all such risk and release the company from all claims and causes of action arising from any injuries or damages resulting from these inherent risks.

#### **FORCE MAJEURE**

The company will do its best to minimise the effects of matters outside its control but cannot accept liability of these matters which include political disputes, industrial action, refusal of visas, border closures, unforeseeable climate, delayed or cancelled flights etc.

#### **TRAVEL INSURANCE**

It is the client's responsibility to obtain adequate personal travel insurance. This insurance should, as a minimum, cover personal accident, medical expenses and repatriation expenses. It is recommended that the coverage extends to include loss of effects, curtailment, cancellation and all other expenses which might arise as a result of loss, damage, injury, delay or inconvenience occurring to the client.

#### **PAYMENT**

All rates are quoted in US dollars, unless otherwise stated. Rates are correct at the time of publishing, but are subject to change without notice. Due to fluctuating world fuel prices internal airfares cannot be guaranteed and rate is therefore subject to change. Every effort will be made to maintain quoted rate. A deposit of 20% is required to confirm any booking and balance of payment is due 30 days prior to commencement of trip.

#### **CANCELLATION BY THE CLIENT**

Any cancellation by the client must be in writing and acknowledged by Wilderness Explorers. The date on which the correspondence is received will determine the loss of any monies applicable.

- Cancelled more than 90 days prior to arrival - Full refund.
- Cancelled 60 to 90 days prior to arrival - 5% administration fee.
- Cancelled 41 to 59 days prior to arrival – 20%
- Cancelled 31 to 40 days prior to arrival - 50%.
- Cancelled 2 to 30 days prior to arrival or no show - 100%.

#### **RESPONSIBILITY**

All services are organised by Wilderness Explorers. Notice is hereby given that all arrangements made on behalf of customers are made by the organisers on the sole condition that the organisers shall not be held responsible for any injury, death, accident, delay, loss, damage or irregularity which may be occasioned through acts of any company and /or persons engaged in carrying out the arrangements and Wilderness Explorers acts as an agent for transport companies, hotels and other contractors and shall not be liable for any injury, damage, loss, delay or irregularity that may occur, including, but not limited to, any defect in a vehicle or any other form of conveying a traveler, acts of God, detention, delays or expenses arising from quarantine, strike, riots, theft, force majeure, civil disturbance, government restrictions or regulation, accident by aircraft, boat, bicycle, motor vehicle or any other form of transport or in any hotel, resort, ranch, guest house, camp or other form of accommodation.

#### **SEVERABILITY**

In the event that any term or condition contained herein is unenforceable or void by operation of law or as being against public policy or for any other reason then such term or condition shall be deemed to be severed from this Agreement or amend accordingly only to such extent necessary to allow all remaining terms and conditions to survive and continue as binding.

**Payment for a tour is taken as acknowledgement and acceptance of all of the above terms and conditions.**
